

SHERIFF IN SEARCH
FOR LOUIS DISBROW.

Subpoena Server After the Missing Man—Must Face the Coroner to Testify Concerning the Good Ground Tragedy—He Is Not at His Parents' Home in Richmond Hill, Father Declares.

Another definite step was taken to-day toward solving the Good Ground mystery.

A subpoena was issued for the appearance, to-morrow, before Coroner Nugent of Louis Disbrow, who alone is supposed to know the details of the death of "Dimple" Lawrence and Clarence Foster in Tianna Bay.

According to the statement of Mr. Disbrow's lawyer the young man is at his father's home at Richmond Hill. Mr. Disbrow, sr., however, positively denies that this is a fact. He declares he has not seen his son since May 15.

The Deputy Sheriff, who was in-

structed to serve the subpoena, is making a vigorous search for the missing man.

MY SON IS NOT
AT HOME, SAYS
MR. DISBROW.

RICHMOND HILL, June 19.—Thomas A. Disbrow, father of Louis, refused to see reporters at the front door of his home to-day, but sent them to the back door, where he talked with them. "I reiterate," he said, "that my son is not in this house. If he were I would know it, and I say again I have not seen him since May 15."

SOFT COAL
ABANDONED
BY "L" ROAD.

Relief from Smoke Nuisance on All Lines Is Promised by Attorney of the Company.

SHOW FEAR OF LEDERLE

Company Announces that It Has Bought a Week's Supply of Anthracite—One Lot Was Refused.

There will be no soft coal burned on any of the lines of the Manhattan "L" to-morrow, and for at least a week following.

This statement was made to-day by Charles L. Gardiner, attorney for the road, at the opening of the public hearing at the headquarters of the Board of Health.

The meeting was held pursuant to an order issued by Dr. Lederle, President of the Board of Health. The order required the Manhattan officials to furnish proof that they are unable to obtain hard coal sufficient for the running of trains. It was evident from the start that the company, rather than submit this proof, would try to show justification and state of proceedings by promulgation. It was not surprising when Mr. Gardiner made the following statement: "Since the hearing before Magistrate Zeller on Tuesday last the Manhattan Railway Company has purchased every pound of broken, furnace or grate anthracite coal that has been offered to it by any one. This statement is made without any reservation whatever."

Purchased 3,350 Tons.
"The total amount so purchased is 2,250 tons. Of this total amount, however, only 315 tons have been delivered to date and are now in possession of the company ready for actual use. The balance of this purchase—3,035 tons—is located in different parts of the country and is now in transit, and delivery has been promised as follows: 300 tons on Friday morning, 750 tons on Saturday, 300 tons on Monday and 325 tons on Tuesday."

"I am further authorized by the Manhattan Railway Company to state that it will begin using hard coal on all its lines to-morrow, Friday morning, and will then discontinue on its entire system the use of soft coal. The anthracite coal now purchased is of suitable character. No effort will be made to obtain soft coal, and no effort is being omitted by the company to secure the necessary hard coal for use on its engine."

"I wish to deny with particularity that the Manhattan Railway Company has refused to purchase any soft coal, which has been offered and which it could use from Messrs. Meeker & Co., Mr. N. L. Stokes, Messrs. Meyer & Decker & Co., Messrs. Heller & Sons, Messrs. Gordon & Son or from any other corporation, firm or individual."

"The company will hope to be able to secure further quantities of broken anthracite coal before that date, so as to continue, if possible, the use of anthracite coal. If, however, all efforts fail, it is unable to secure coal in sufficient quantities, it will then be obliged to return to the partial or exclusive use of soft coal."

"The company has sent special agents to Philadelphia, Boston, Baltimore and Albany to secure any broken anthracite coal of suitable character. No effort or expense is being omitted by the company to secure the necessary hard coal for use on its engine."

LEAGUE PARK, PHILADELPHIA.
June 19.—Jupiter Pluvius tried his hardest to save the Quakers from three straight to-day, but old Sol was with the Trolley Dodgers and shut off a post-ponement. It rained all morning, and in spite of the sun the field was wet and soggy. Capt. Keeler said, however, that his bunch were good mud horses and would trim the Showman crowd without trouble.

The batting rally made by the Superbas in the ninth yesterday was the talk of the town, and the fans here acknowledged that the Trolley Dodgers are playing the best ball in the League. They annexed their eighteenth game out of the last twenty-two played in their sensational swatting expedition yesterday.

Ellie Dahlen started it with a bingle to centre garden and Charley Irwin ripped another past White. Duke Farrell popped out a double and then Hueshe and Dolan bled out two more singles. These gave four runs and the game.

For to-day's clash "Wild Bill" Donovan and Duggeby were slated to put the ball over, promising a hard battle in the mud.

The injunction suit of the Brooklyn Club against Jim McGuire came up for a hearing in the United States Court this morning, but was adjourned until next Monday, because the Judge was sick. Johnny Ward came over from Trolleyville to assist Col. Rogers in looking after the Brooklyn end and went back on the next train.

It was cloudy when play began, and less than two thousand fans were present.

President Goldman and Manager McGraw, of the Baltimore Club, appeared in Common Pleas Court here this morning and swore out a summons against Jimmy Sheekard, of the Brooklyn, on a suit brought by the Baltimore Club to recover \$1,000 claimed by Sheekard. A conference will be held to-night at which a settlement is expected.

Featherstone's Speedy Filly Revels in Mud—Herbert First in Handicap.

(Special to The Evening World.)
SHEEPSHEAD RACETRACK, N. Y.
June 19.—Mudlarks were in demand to-day, but there has been little mud form this season and the talent were a bit at sea. They very properly decided that speedy horses were the proper play, and so they made Femesele a red-hot favorite in the opening event, though she has no mud form. The going was soft and there was a good firm bottom. It transpired to-day that Father Bill Daly had claimed out of the last race yesterday the horse Cuspidor, owned by J. B. Haggin. Cuspidor worked a fast mile in Louisville before coming East and is believed to be a pretty fair horse.

Spooner Substitute for House Bill Accepted by Vote 42 to 34, and Amended Bill Passed, 67 to 6—Morgan Made Dramatic Protest, in Closing Debate, Against the Panama Scheme, Which He Said Was "the Union of Labor and Death."

WASHINGTON, June 19.—The Panama route for an Isthmian canal was victorious in the Senate this afternoon, after a dramatic protest by Senator Morgan.

The Senate adopted the Spooner substitute for the House bill by a vote of 42 to 34.

The bill as amended by the Spooner substitute was then passed by a vote of 67 to 6.

The Spooner substitute authorizes the President to begin the construction of the canal by the Panama route if the legal authorities of the Government find that title can be satisfactorily transferred to the United States. Otherwise he is to build the canal by the Nicaragua route.

The first actual test on the two routes was in the amendment offered by Mr. Mitchell, of Oregon, giving the President the choice even if he could secure title for the Panama route. It was laid on the table, 42 to 32.

Senator Fairbanks' amendment for the issuance of bonds on the Isthmian Canal was accepted, 37 to 26.

Vote on Spooner Substitute.
The detailed vote on the Spooner substitute was as follows:
Yeas—Aldrich, Allison, Bard, Beveridge, Burnham, Burrows, Burton, Clark (Wyo.), Clegg, Dacey, DeLoach, Dryden, Fairbanks, Foraker, Foster (Wis.), Frye, Gallinger, Gamble, Hale, Hanna, Hansbrough, Hoar, Jones (Ark.), Jones (Nev.), Keam, Kittredge, Lodge, McCammon, McCumber, McMillan, Mason, Millard, Platt (Conn.), Pritchard, Proctor, Quinn Tamm, Spooner, Teller, Warren, Wellington, Wetmore—42.
